PROFESSIONAL SUMMARY

MERN Stack Developer with an M.C.A. and hands-on experience building responsive, secure, and scalable web applications end-to-end using React.js, Node.js, Express.js, and MongoDB. Skilled in designing REST APIs, managing relational and NoSQL databases, and implementing authentication, real-time features, and reusable UI components. Strong track record of shipping features that measurably improved reliability, performance, and user engagement, with practical exposure to Git-based version control, code reviews, and Agile collaboration.

Technical Skills

- Frontend: React.js, Redux Toolkit, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Material UI
- Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, WebSockets
- Databases: MongoDB, MySQL — schema design, queries, aggregation, and data modeling
- Software Engineering Practices: SDLC, Git/GitHub version control, code reviews, unit testing, debugging & troubleshooting
- Tools: VS Code, Postman, MongoDB Atlas, Git
- Additional: LangChain, LangGraph, Agentic AI Systems, RAG, AI Workflow Automation

EDUCATION

- Parul University ,Vadodara** 2023 - 2025
M.C.A. - FS Web Developer - PIET
 - CGPA: 8.60 / 10 — Coursework: System Design, Databases, Node.js
- Sage University, Bhopal** 2020 - 2023
B.C.A. - Computer Application
 - CGPA: 9.00 / 10 — Coursework: Data Structures, Java Programming, Python

EXPERIENCE

- MERN Stack Developer** Surat, Gujarat
Blurbee Solutions July 2025 – July 2026
 - Built and maintained full-stack features for a business portal using React.js, Node.js, Express.js, and MongoDB, implementing secure OAuth-based authentication that improved login reliability by 40%.
 - Designed a role-based permission system for files and folders using Node.js/Express APIs and MongoDB schemas, ensuring accurate user-level access control.
 - Engineered scalable background job processing in Node.js to handle long-running backend tasks efficiently.
 - Designed and maintained database schemas using TypeORM, improving data consistency across the application.
 - Built a custom form builder with dynamic fields and validation using React.js, increasing form creation speed by 55%.
 - Implemented WebSocket-based real-time notifications and custom theme management with React, improving user engagement and personalization.
- Software Developer Trainee** Surat, Gujarat
WebAshlar Software Solution Pvt. Ltd. Dec 2024 - May 2025
 - Developed and tested a feedback system UI using React.js, Redux Toolkit, and Material UI, improving user engagement by 30%.
 - Built and integrated REST APIs using Node.js/Express.js and JWT authentication, reducing response time by 25%.
 - Managed MongoDB data models and aggregation queries, increasing feedback reporting efficiency by 40%.
 - Improved code quality through form validation, routing, and modular React components, reducing user errors by 35%.

CERTIFICATIONS

- Computer Networks and Internet Protocol Aggregate: 71 / 100
